Virtual Interview

Congratulations on successfully answering all the queries and submitting the modules well within time!

To complete the internship and earn your certificate of completion, you have to appear for an interview.

This interview is unique as it'd be a virtual interview, which can be taken at any time, at the comfort of your home. The interview questions would be strictly restricted to the internship modules, the company of your choosing and the submissions you made, so if you've diligently completed the modules, you are good to go!

You will be asked 6 questions during this interview.

All the instructions and guidelines would be displayed once you click on the link. Make sure you go through them thoroughly. The interview will begin only when you choose to, and you can appear for the interview once. **There will be no re-submissions for interview.**

Requirements

You are required to use a laptop with a webcam to take the virtual interview.

Revise the topics you have covered in the interview.

Be presentable as you would in a physical interview.

Before you can start your interview, please submit your CV/Resume here. Only PDF/Word docs are acceptable. [Upload Resume](#)
